BOARD OF COUNTY COMMISSIONERS PRESS RELEASE

Klamath County plans to update the county logo and would like public participation in the process. The County Commissioners would like to give community members an opportunity to get involved. “The current County logo, designed in 1976, does a great job of capturing some of Klamath County’s strengths, however, some 40 years later, the board feels it’s time to modernize the look, while still incorporating Klamath County’s best attributes” said Board Vice-Chair Derrick DeGroot.

The Commissioners request anyone interested, please submit a logo design for consideration no later than **April 1, 2017**. Once selected, the creator will be featured in a news release and on the county website.

It would be preferable for submissions to be in an Adobe Illustrator file, however all submissions will be considered.

“The board loves the idea of getting people involved in this process, we want people to feel proud of how their county looks” said Board Chair Kelley Minty Morris.

Questions can be directed to County Commissioner Staff at 541-883-5100, by emailing bocc@klamathcounty.org.
