

Department Mission:

To provide the citizens an organized facility to research the surveying records and to provide for the safe keeping of the public records filed in the Klamath County Surveyor's Office. Perform the surveying services required by state statutes in a professional, efficient and timely matter.

Mandated Services:

The County Surveyor is required by Oregon Revised Statutes to provide 24 different mandated services to the public. In summary, he must conduct surveys of county land and roads when a court orders so. The County Surveyor is required to review, approve and file survey maps, subdivision, partition and condominium plats. Index all maps, plats, road records and preserve them as permanent records and make them available to the public. Establish or reestablish all public land survey corners. I have user fees in place to cover all the mandated services.

Department Overview:

The Klamath County Surveyor's Office serves the public by:

Checking private survey maps for compliance with Oregon statutes and file them in the Surveyor's Office as public records.

Assist the public and other county departments with interpreting legal descriptions, road right of way records and general surveying research.

Review subdivision, partition and condominium plats for compliance with Oregon statutes and the Klamath County Development Code. Index and file exact copies of the plats for public record.

Recover, restore and preserve original Public Land Survey System (PLSS) corners.

Successes and Challenges:

Each year we are scanning more survey related information and making it available online for the public to use in research of their property.

With being a part time surveyor and utilizing the local surveyors, we are averaging reestablishing 50 corners per year with our Public Land Survey System (PLSS) program. PLSS corners are section corners, $\frac{1}{4}$ corners, meander corners or any other corner established by the Government Land Office (GLO). Because of the 2014 local fires we are back updating corners that we had visited and re-established two years ago.

Budget Overview:

The County Surveyor is an elected, part time position. It is funded by user fees and general fund money.

The **1061-SURVEYOR** (mandated services portion of my budget) is funded by the revenue generated from checking and filing survey maps, partition plats and subdivision plats. The last 5 years I have averaged 70 survey maps, 25 partition plats and 1 subdivision plat per year. Last fiscal year we were down 30% on revenue from survey maps, 50% down on revenue from partition plats and 100% down on subdivision plats from the average.

The **1062-PUBLIC LAND CORNER PRESERVATION FUND** is funded by a \$5.00 fee collected for each deed or recorded document that is related to land transactions which are recorded in the Clerk's Office. **ORS 203.148** allows counties to establish this dedicated fund for the corner work, and Klamath County established our fund in 1988. By statute, the fee collected can only be used in the establishment, re-establishment and maintenance of PLSS (Public Land Survey System) corners.

Klamath County is +/-6130 square miles and consists of 181 Townships with approximately 135 corners per Township for a grand total of 24,000 corners. I do the work in house and also contract out some of the work to the local surveyors. The work is perpetual because of the maintenance required to preserve the corners.

Significant Changes:

Overall budget changes – Surveyor salary and expenses are split 50/50 between the two budgets. A portion of 1061-Surveyor budget is funded from the general fund. The user fees were increased for the 1061-Surveyor budget by 50% effective July 1, 2014. Anticipate less revenue from user fees until the economy picks back up.

Key issues:

Per Oregon Revised Statute, the County Surveyor's compensation is to be paid out of the county treasury. A fee may be charged to reimburse the cost of the mandated work being performed by the County Surveyor.

Klamath County, Oregon
