“Ore-Cal’s mission is to increase the vitality of our natural resource-based communities.”

Dear Friend of Ore-Cal RC&D Council,

January 1, 2022

Thanks to supporters like the Klamath County Board of Supervisors, 2021 was, despite Covid shut downs a very busy and successful year for Ore-Cal RC&D. With your continued support we will continue to complete our mission: “to increase the vitality of our natural resource-based communities.

We held your sponsorship amount at \$375.00 for county governments (See Attached Form). Please fill out the attached form and send it in along with your sponsorship check today so we can continue our work in the county.

Ore-Cal continues to listen and assist individuals, agencies and organizations.

- Facilitation and project development to create the Tri-State Watershed Improvement Partnership (T-WIP) while engaging agencies, nonprofits, and landowners from three states and five counties (Lake & Klamath in Oregon and Siskiyou, western Modoc and western Shasta Counties). T-WIP aims to improve habitat through juniper management to increase Mule Deer, Elk and Antelope herds, while improving grazing, water quantity and quality across the eastern high desert areas we serve.
- SiskiyouWorks is a linchpin project of Ore-Cal bringing a collective impact to workforce creation and training, education k-14 and business and industry partners in a collaborative working partnership. Going into our third year we continue to support education, workforce, and economic strengthening.
- Assisting Newell Community Water District in applying for funding to deepen the current well to avoid loss of water to the community in current and future droughts.
- Completion of the Butte Valley Community Center Addition (2020) project combining grants from 4 foundations with a powerful volunteer workforce. The project was completed on time, underbudget and with many additional features we added due to savings created by the volunteers of the Dorris Lions Club. Currently applying for funding to install battery backup systems for grid down disaster relief events.
- Road 31 Fuel Break, a fuels reduction project to protect the national forest and one of our largest employers, Mt. Shasta Ski Park.
- Thank you for your time and consideration to join our broad-based community collaborative team effort! We sincerely appreciate your support and look forward to working together to help make our region flourish.

Sincerely,

George Jennings, Executive Director
