PURCHASE ORDER TERMS

1. ACCEPTANCE

This P.O. (collectively, the cover or face page(s), including any other documents referred to or attached, and these terms) shall be deemed received and accepted upon the earlier of the following: (a) the Contractor's electronic acceptance of this P.O. by clicking on "accept" (or a similar acknowledgement) on the Company's e-commerce site; (b) the Contractor's execution or acknowledgement of this P.O.; and (c) commencement or shipment of any Work.

This P.O. governs the performance of the Work and supersedes all terms and conditions that may be submitted by the Contractor. Failure of the Company to object to any term or condition submitted by the Contractor will not be construed as a waiver or amendment of this P.O.

2. PRICE AND PAYMENT

"Price" means the price set out on the cover or face page(s). The Contractor shall perform the Work for the Price calculated and payable in the manner provided in this P.O.

All amounts are in US dollars unless specifically stated otherwise. If any portion of the Work is quoted in a currency other than US dollars, the Contractor will indicate the quoted foreign currency on the invoice.

Upon the Company's receipt of a correct invoice in a format acceptable to the Company at the address provided on the cover or face page(s) or through the Company's e-commerce site, the Company will, except as otherwise stated on the cover or face page(s), pay monies owing within the payment term provided on the cover or face page(s). The Company reserves the right to dispute any invoice. If so disputed and requested by the Company, the Contractor shall resubmit two (2) new invoices, one detailing the undisputed amounts and the second invoice detailing the disputed amounts.

If the Contractor is required to transact via the Company's e-commerce site, the invoice generated by the Company specified e-commerce application is the determinative invoice of all amounts owing, and any other invoice submitted shall be of no force and effect.

No payments made by the Company under this P.O. shall constitute a waiver of any claim or right the Company may have at that time or thereafter, including claims regarding direct damages, warranty rights and indemnification obligations of the Contractor. No payments by the Company under this P.O. shall be considered or deemed to represent that the Company has inspected the Work or checked the quality of the Work and shall not be deemed or construed as an approval or acceptance of any Work. All payments shall be subject to future correction or adjustment.

The Company is entitled to withhold and remit any amounts which are required by law to be held back and remitted or paid to a third party and to hold back from payment any sums required pursuant to any lien legislation or law.

Notwithstanding anything to the contrary in this P.O., in the event that any amount is due to the Company or the Company's affiliate by the Contractor, the Company shall have the right of set-off against the Contractor for that amount, whether such amount arises pursuant to this P.O., any other contracts between the Contractor and the Company, the Company's affiliate or otherwise.

The Contractor shall keep the property of the Company free and clear of all liens, Claims, and encumbrances arising from the Work, provided however that this provision will not operate to deprive the Contractor of statutory lien rights that may arise in the event of non-payment by the Company.

3. TAXES

All applicable sales taxes calculated on the Price and to be paid to the Contractor by the Company must be itemized on each invoice. If the Contractor has a tax registration number for any such taxes, such tax registration number must be listed on the invoice.

The Contractor shall pay the cost of all labor, materials, and equipment, including the cost of all rental equipment, to be furnished by the Contractor in connection with the performance of the Work and shall pay, or, as applicable, withhold and pay to the appropriate lawful authority, all workers' compensation premiums, unemployment insurance, social security, and employee income tax payments, with holdings, and payroll contributions together with all taxes that are payable or required to be withheld by the Contractor.

The Contractor shall comply with all laws and regulations relating to the collection and remittance of any taxes and the Contractor shall defend, indemnify, and hold harmless the Company from and against all Claims, costs, penalties and interest which may be assessed against the Company in respect to the Contractor's obligations specified in this Article 3. The Company is not responsible for the payment of any taxes based on the Contractor's income or gross or net receipts.

4. CONDUCT OF THE WORK

"Work" means the work required to be performed by the Contractor hereunder, as listed on the cover or face page(s), including any work which is not expressly described in this P.O. but which is reasonably implied, incidental to or foreseeably required in order to perform the Work or necessary for the proper execution of the Work. All Work is subject to inspection and approval by the Company, but neither inspection nor failure to inspect will relieve the Contractor of any of its obligations under this P.O.

The Contractor shall perform and execute the Work in accordance with this P.O. and the law and in a professional, efficient, prompt, economical, skillful and good workmanlike manner, in accordance with the methods, standards, practice and diligence employed by leading companies in the field or industry to which the Work relates. The Company may, from time to time, provide directions with respect to the performance of the Work and the Contractor agrees to follow such directions.

The Contractor acknowledges and agrees that this P.O. does not grant the Contractor an exclusive right to perform the Work, or any work, for the Company.

Equipment, materials, products, and goods supplied by the Contractor for the Work may be subject to approval by the Company.

The Contractor is an independent contractor and shall perform the Work as such. The Work will be performed by the Contractor under its own direction and control and at its own risk. Nothing in this P.O. is to be construed as creating a partnership, joint venture, master and servant, or principal and agent relationship between the Company and the Contractor. The Contractor does not have the authority to enter into agreements or incur liability on behalf of the Company.

The Contractor shall supply a sufficient number of personnel to enable timely and proper execution and completion of the Work in accordance with this P.O. All such personnel, including subcontractor personnel, shall be competent, qualified by education, training, experience, and as required by law, and, in all other respects, shall be capable of carrying out the tasks to which each is assigned.

If the Contractor enters onto any Company site or property for the performance of any part of the Work, it shall comply with all applicable access, safety and security requirements. The Company shall have the right to stop any Work on its site or property which is thought to be unsafe or not in conformity with such requirements or applicable law; the Contractor shall not be entitled to reimbursement for any costs, expenses or damages resulting from such stoppage.

The Contractor has, or shall obtain in a timely manner, all permits, licenses, approvals, consents, and authorizations necessary to perform the Work and to use, distribute, and/or modify anything the Contractor uses to perform the Work.

The Contractor shall commence Work on the date provided in this P.O., perform the Work diligently and continuously, and perform the Work in accordance with, and in a manner that is consistent with, any delivery date or work schedule included in this P.O.

If the Contractor is responsible for a delay in the performance of the Work, or fails to perform any portion of the Work in accordance with any delivery date or work schedule included in this P.O., the Contractor shall, at no additional cost to the Company, work overtime, acquire and use any necessary additional labor and equipment, and perform whatever other acts are required or requested by the Company to make up the lost time and to avoid delay in the completion of the Work.

The Contractor may not make additions, changes, alterations or omissions to the Work, or perform extra work, or supply or use extra materials or equipment of any kind without the prior written consent of the Company.

"Rules and Guidelines" - the Company's rules and guidelines on the Company's website at www.tenergy.com/vendors (or such other web address that the Company may provide to the Contractor), as of the Effective Date.

The Contractor shall comply with all laws and the Rules and Guidelines, and shall ensure that the subcontractors and all of the Contractor's and the subcontractor's employees, representatives and agents are familiar with and comply with same. If the Contractor becomes aware of any material, potential or actual violation of, or conflict with, or failure to comply with any law, the Rules and Guidelines or any other provision of this Agreement, it shall immediately give to the Company written notice specifying such violation, conflict or failure to comply and its proposed course of action for remedying such violation, conflict or failure to comply.

5. ACCESS TO COMPUTING RESOURCES AND INFORMATION

The Contractor understands and agrees that the Contractor, its employees, and subcontractors will not attempt to access or have access to any computer or computer systems of the Company, except under the supervision of and in accordance with the instructions given by a Company representative. The Contractor shall ensure that: (a) the Company representative is informed in advance as to any required usage of a computer or computer system of the Company, and that the written approval of the Company representative is obtained prior to any such usage; (b) no attempt is made to obtain access to any information contained in any computer or computer system of the Company, other than as specifically authorized by the Company representative; and (c) no program or data is entered into a computer or computer system of the Company, other than as specifically authorized by the Company representative.

6. RECORDS AND AUDITS

"Records" means all records, information, material and data, in whatever form or medium (written or electronic), including but not limited to documents, files, books, statements, reports, policies, procedures, agreements, subcontracts, accounts, and personnel expense information pertaining to the Company, this P.O., the performance of the Work, amounts payable under this P.O. or compliance with the terms of this P.O.

The Contractor shall preserve all Records in good order during the term of this P.O. and for a period of three (3) years after the later of (a) the completion of the Work; (b) the date of any termination of this P.O. prior to completion of the Work; or (c) the final invoice date. All Records shall be kept and maintained in accordance with generally accepted accounting principles as applicable in the United States of America consistently applied.

For the purposes of determining the Contractor's and its subcontractors' compliance with all of the terms of this P.O. and for verification of all Work performed and all amounts payable under this P.O., including Claims and suspension or termination charges, the Company and its authorized representatives shall have the right at any time upon reasonable notice to the Contractor (or immediately in the case of an actual or perceived emergency) to inspect, copy and audit Contractor's and its subcontractors' Records at all reasonable times throughout the term of this P.O. until the completion of the Work (or the date of any termination of this P.O. prior to completion of the Work), and for a period of three (3) years thereafter. The Contractor shall ensure all subcontractors are required to preserve and make available all Records in the same manner as the Contractor is required to under this P.O.

7. PACKAGING, LABELLING AND SHIPPING

The Contractor shall be solely responsible for (a) the shipment and delivery of the Work in accordance with any shipment and delivery terms (including Incoterms) set out in this P.O., the applicable law and in accordance with industry guidelines relating to the packaging, labelling, documenting, reporting and registering of such Work; (b) the accuracy of the description and classification of all Work shipped to the Company; and (c) any damages which arise due to non-conforming packaging or failure to ship the Work in accordance with this P.O.

8. CONFIDENTIALITY

"Confidential Information" means information in whatever form, including but not limited to verbal, written, and electronic information, data, programs, processes, accounts, specifications and reports, that is disclosed by the Company or its representatives to the Contractor or any of the Contractor's representatives relating to the Work or the Company's business and affairs, and includes all derivative information, reports, interpretations, and analyses generated therefrom. Confidential Information does not include information that is: (a) lawfully known to the Contractor on a non-confidential basis prior to its receipt from the Company; (b) generally known to the public, other than as the result of an act of the Contractor or any third party under an obligation of confidentiality with regard to such information; or (c) lawfully received by the Contractor from a third party not bound to maintain such information as confidential.

The Contractor shall (a) not use Confidential Information for any purpose whatsoever except for the performance of the Work; and (b) maintain all Confidential Information in confidence and shall not disclose Confidential Information to any person, firm, partnership, company, corporation or other entity or Governmental Authority.

83 The Contractor may disclose Confidential Information only to those employees, representatives, and subcontractors participating in the performance of the Work who have a need to know such Confidential Information to perform the Work and who have been informed of and agree to observe the terms of this P.O. relating to Confidential Information. The Contractor shall be responsible for any breach of this Article 8 by any of its employees, representatives or subcontractors.

84 In the event that the Contractor or any of its employees, representatives, or subcontractors are required by law to disclose Confidential Information, the Contractor shall: (a) immediately provide to the Company written notice thereof so that the Company may seek a protective order or other appropriate remedy or waive compliance by the Contractor with this Article 8 in whole or in part; (b) furnish only that portion of the Confidential Information that is legally required; and (c) exercise reasonable efforts to obtain assurances that confidential treatment will be accorded to such Confidential Information.

85 In the event the Contractor becomes aware that Confidential Information has been disclosed or used, or is intended to be disclosed or used, in a manner that would violate the terms of this P.O., the Contractor shall: (a) immediately notify the Company, providing all details available regarding such violation; (b) immediately take all commercially reasonable steps to prevent, stop, and rectify such violation; and (c) keep the Company fully informed of all steps taken by the Contractor to prevent, stop, and rectify such violation.

86 Upon request of the Company, the Contractor shall return to the Company all Confidential Information that the Contractor and its employees, representatives, and subcontractors have received.

87 The confidentiality and non-use covenants contained in this P.O. will survive for five (5) years following the completion of the Work (or the date of any termination of this P.O. prior to completion of the Work).

88 The Contractor acknowledges and agrees that actual or threatened disclosure or use of Confidential Information that does not fully comply with the terms of this P.O. will cause irreparable harm to the Company for which an award of damages alone will not be adequate compensation. Accordingly, the Contractor agrees that the Company shall be entitled to seek injunctive relief to prevent actual or threatened breaches of this Article 8, and to specifically enforce the terms hereof, in addition to any other remedy to which the Company may be entitled, at law or in equity.

9. TERMINATION

91 The Company may, by notice to the Contractor, immediately terminate this P.O. in whole or in part if the Contractor:

- (a) fails to follow the Company's reasonable instructions and does not cure such failure within seven (7) days of notice thereof;
- (b) breaches any provision of this P.O. and does not cure such breach within seven (7) days of notice thereof;
- (c) becomes insolvent, bankrupt, takes the benefit of any insolvency or bankruptcy law, enters into a plan of arrangement for the benefit of its creditors, or makes a general assignment for the benefit of creditors; or

Upon such termination, the Company shall pay the Contractor for all Work satisfactorily completed prior to the date of termination, less the sum of any monies already paid to the Contractor.

92 Either Party may, at its option, terminate this P.O. or any part thereof upon five (5) days written notice to the other Party. Upon such termination, the Company shall pay to the Contractor the sum of the following: (a) all amounts due and not previously paid to the Contractor for that part of the Work completed prior to receipt of notice of termination; (b) all amounts owing for the Work requested to be performed after the Contractor received the notice of termination; and (c) reasonable direct costs that, in the opinion of the Company, result from the termination of the Work.

93 Upon termination of this P.O. in whole or in part, the Company will not incur any further liability to the Contractor or the Contractor's directors, officers, employees, representatives, or subcontractors with respect to such termination, and the Contractor waives all Claims, including for loss of anticipated profits on account thereof, and agrees that its sole remedy for such termination shall be receipt of the payments set out in this Article 9. In addition, the Company shall maintain all rights under this P.O. and law.

94 Upon receipt of notice of termination, the Contractor shall ensure that no further commitments are made with respect to the terminated Work (unless authorized in writing by the Company), and shall take all reasonable steps necessary to minimize any costs arising from commitments made prior to receipt of such notice.

95 The Contractor shall submit a detailed account of all reimbursable costs incurred with every request for payment arising out of or as a result of termination pursuant to this Article 9.

96 Upon termination of this P.O., all Company-furnished material in the Contractor's possession must be immediately returned to the Company or, if the Company stipulates certain Work to be completed in the termination notice, be returned no later than the date of completion of such Work.

10. INSURANCE

Such insurance must stay in full force and effect for the warranty periods specified in this P.O.;
- (b) automobile liability insurance for the Contractor's owned, non-owned, rented and leased automobiles, with a minimum combined single limit of Two Million Dollars (\$2,000,000) per occurrence;
- (c) workers' compensation insurance or its equivalent, including occupational disease coverage, as required by law for all employees, and subcontractors; and employer's liability insurance (including occupational disease coverage) with a minimum limit of One Million Dollars (\$1,000,000) per occurrence. Such insurance shall provide coverage in the location in which the Work is performed and the location in which the Contractor is domiciled. The Contractor expressly agrees to comply with all provisions of the law related to workers' compensation of the state or country wherein the Work is being performed. If there is an exposure of injury or illness under the U.S. Longshoreman and Harbor Workers Compensation Act, the Jones Act, or under U.S. or foreign laws, regulations or statutes applicable to maritime employees, coverage shall be included for such injuries or Claims and shall have a territorial extension for the area in which the Work is performed. Such coverage shall include maritime employer's liability insurance in the amount of One Million Dollars (\$1,000,000) per occurrence endorsed to include coverage for the obligation to provide transportation, wages, maintenance and cure. Voluntary compensation and the alternate employer's endorsement are required under this P.O. In all cases where the Contractor's employees (defined to include the Contractor's direct, borrowed, special, or statutory employees) are covered by the Louisiana Workers' Compensation Act, La.R.S. 23:1021 et seq., the Company and the Contractor agree that all Work and operations performed by the Contractor and its employees pursuant to this P.O. are an integral part of and are essential to the ability of the Company to generate the Company's goods, products and services for purposes of La.R.S. 23:1061 (A) (1). Furthermore, the Company and the Contractor agree that the Company is the principal or statutory employer of the Contractor's employees for purposes of La.R.S. 23:1061 (A) (3). Irrespective of the Company's status as the statutory employer or special employer (as defined in La.R.S. 23:1031 (C)) of the Contractor's employees, the Contractor shall remain primarily responsible for the payment of Louisiana Worker's Compensation benefits to its employees, and shall not be entitled to seek contribution for any such payments from the Company; cargo insurance against physical loss of or damage to the Work caused by loading, unloading and transit perils including but not limited to loss of or damage to the Work incurred at interim storage depots or while the Work is in the process of conveyance to the delivery point shown on the cover or face page(s) of this P.O.;

102 The insurance requirements outlined in this P.O. may be achieved through primary policies, excess policies, or a combination thereof.

103 All deductibles for insurance policies placed by the Contractor pursuant to this P.O. will be to the Contractor's account.

104 The Contractor shall ensure that all its required insurance policies to be maintained under this P.O., to the maximum extent permissible by law in the jurisdiction where the Work is to be performed:

- (a) include the Company as an additional insured with respect to the obligations assumed by the Contractor pursuant to this P.O. (except with respect to workers' compensation insurance coverage required by Section 10.1(c)); and
- (b) are endorsed to provide for a waiver of subrogation in favor of the Company, its parents, subsidiaries and affiliates including their respective directors, officers, employees, agents, representatives and parties for which it is operating.

105 Should the Contractor receive a cancellation or termination notice from its insurer, the Contractor shall notify the Company within thirty (30) days of such notice.

106 Neither the providing of insurance by the Contractor in accordance with the requirements of this P.O. nor the insolvency, bankruptcy, or failure of any insurance company to pay any Claim accruing, will be held to waive any of the provisions of this P.O. with respect to the liability or indemnity obligations of the Contractor, or otherwise.

11. NOTICES

111 Notices shall be in writing and sent by prepaid or registered mail, email, or courier to the other party at the address noted on the cover or face page(s).
