- [April 7, 2020 COVID-19 Daily Update](#) - Produced jointly by the [Oregon Health Authority](#) and the [Oregon Office of Emergency Management](#). It details the overall picture of the COVID-19 response across government agencies.
- Projected COVID-19 Epidemic Trends and Health System Needs for Oregon: [March 23, 2020](#) | [Update March 30, 2020](#)
- [Governor's Joint Task Force for Health Care Systems Response to COVID-19 Initial Report, March 23, 2020](#)

†County of residence for cases may change as new information becomes available. If changes occur, we will update our counts accordingly.

*For additional details on individuals who have died from COVID-19 in Oregon, please [refer to our press releases](#).

‡Ever hospitalized, if available.

Notes:

1. Because community transmission is occurring in Oregon and recommendations on [social or physical distancing](#) are in place, as of March 17, 2020, we no longer report daily counts of persons under monitoring.
2. Confirmation by CDC of laboratory results from the Oregon State Public Health Laboratory is no longer required; therefore as of March 15, 2020, we no longer note the number of CDC-confirmed cases.
3. Reporting of travel history is not available for cases reported to OHA by commercial laboratories; therefore as of March 15, 2020, we no longer include information about travel history.
4. As of March 26, 2020, OHA is releasing a COVID-19 Daily Update (formerly called the Situational Status Report) which is produced jointly with [Oregon Office of Emergency Management](#). It details the overall picture of the COVID-19 response across government agencies.
 - Previous updates are posted on [OHA's COVID-19 News page](#).

Notes:

1. As of March 25, 2020, we are including the number of pending test results available from the Oregon State Public Health Laboratory (OSPHL). The OSPHL serves as the first source of testing during an outbreak and as commercial labs come online, OSPHL increases focus on priority testing. Commercial labs have the ability to conduct testing on an industrial scale, but do not report pending results, therefore we only include pending results from OSPHL.
