The graph below shows the number of COVID-19 cases from Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County each calendar week beginning the week of 3/1/20-3/7/20 (when the first cases were identified in Region 7).

Data for this week is not yet shown. This graph will be updated weekly to show the number of COVID-19 cases identified each week in Region 7.

This graph shows data based on the date a case first became identified as a case, which is the date Oregon Health Authority (OHA) uses for school metrics, public health indicator metrics, and other tracking purposes. This date differs from the date OHA reports a case publicly in news releases.

COVID-19 Public Health Indicators for Monitoring
The indicators below are updated once per week. Data shown is for the week of 11/29/20. Green shading means the county is meeting the indicator, and orange shading means the county is not meeting the indicator. No shading or “●” indicates that the indicator does not apply due to small numbers. For more information, visit the [OHA Public Health Indicators dashboard](#).

**Oregon’s COVID-19 Risk Levels**

This map shows the indicator OHA is tracking to monitor COVID-19 risk in Oregon counties. As counties begin to open back up, we want to be sure the risk of COVID-19 in Oregon remains low enough to keep Oregonians safe. For more information, visit the [OHA Public Health Indicators dashboard](#). This dashboard is updated weekly.
COVID-19 School Metrics Data

Oregon public health officials have developed metrics to help school boards and school districts make decisions about how they can safely reopen schools. For a school to return to in-person instruction through the ODE On-Site or Hybrid instructional models, the metrics below must be met:

**Large Counties (≥30,000 residents):** For K-12, case rate is <50 cases per 100,000 in the preceding 14 days and test positivity is <5% in the preceding 14 days. For K-6 case rates is <100 cases per 100,000 in the preceding 14 days and test positivity is 5% to <8% in the preceding 14 days.

**Small Counties (<30,000 residents):** For K-12, case count is <30 cases in the preceding 14 days and test positivity is <5% in the preceding 14 days. For K-6, case count is <45 cases in the preceding 14 days and test positivity is 5% to <8% in the preceding 14 days.

There are exceptions to this metric which can be found the ODE’s Ready Schools, Safe Learners information page.

Region 7 Public Health Response

Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County Public Health Departments regularly manage communicable disease outbreaks, and we are prepared to investigate and respond. When a case of COVID-19 is identified in our community, Public Health Nurses work on contact tracing to identify and notify individuals who might have been exposed.

We began preparing for local impacts of COVID-19 and regularly meeting with healthcare partners, Oregon Health Authority, and CDC in January 2020.

We continue to work closely with local schools, healthcare providers, emergency services, cities, businesses, and others to coordinate efforts and to share the most up-to-date information.

This situation update was compiled by the Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County Health Departments. It will be updated with state, national, and worldwide situation data and sent every week.
