The graph below shows the number of COVID-19 cases from Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County each calendar week beginning the week of 3/1/20-3/7/20 (when the first cases were identified in Region 7).

Data for this week is not yet shown. This graph will be updated weekly to show the number of COVID-19 cases identified each week in Region 7.

This graph shows data based on the date a case first became identified as a case, which is the date Oregon Health Authority (OHA) uses for school metrics, public health indicator metrics, and other tracking purposes. This date differs from the date OHA reports a case publicly in news releases.

COVID-19 Vaccination Trends

We know it will take some time before every Oregonian who wants to get the vaccine can get their two shots, Oregon Health Authority will follow a phased approach.

Region 7 Public Health Response

Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County Public Health Departments regularly manage communicable disease outbreaks, and we are prepared to investigate and respond. When a case of COVID-19 is identified in our community, Public Health Nurses work on contact tracing to identify and notify individuals who might have been exposed.

We began preparing for local impacts of COVID-19 and regularly meeting with healthcare partners, Oregon Health Authority, and CDC in January 2020.

We continue to work closely with local schools, healthcare providers, emergency services, cities, businesses, and others to coordinate efforts and to share the most up-to-date information.

This situation update was compiled by the Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County Health Departments. It will be updated with state, national, and worldwide situation data and sent every week.
