The graph below shows the number of COVID-19 cases from Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County each calendar week beginning the week of 7/4/21-7/10/21 (capturing the first weeks of the Delta variant surge).

Data for this week is not yet shown. This graph will be updated weekly to show the number of COVID-19 cases identified each week in Region 7.

This graph shows data based on the date a case first became identified as a case, which is the date Oregon Health Authority (OHA) uses for school metrics, public health indicator metrics, and other tracking purposes. This date differs from the date OHA reports a case publicly in news releases.

The graph below shows the number of COVID-19 related deaths from Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County each calendar week beginning the week of 7/4/21-7/10/21 (capturing the first weeks of the Delta variant surge).

Data for this week is not yet shown. This graph will be updated weekly to show the number of COVID-19 related deaths identified each week in Region 7.
This graph shows data based on the date OHA first reports a death publicly as a COVID-19 related death in news releases, which is the date Oregon Health Authority (OHA) uses for tracking purposes. This date differs from the date of death. The reporting of COVID-19 related deaths to OHA may experience delays for various reasons.

Vaccination data is as of 1/14/22, 12:01AM Pacific Time. For more information, visit the [OHA COVID-19 Vaccination Trends dashboard.](#)
Oregon's public health officials and the CDC have developed evidenced-based metrics to track COVID-19 community spread. The indicators are determined by case rates and test positivity in the previous week. If the two indicators suggest different transmission levels, the higher level is selected.

### COVID-19 School Advisory Metrics Data

The rescinding the Governor’s executive orders on 6/30/21 for K-12 schools, higher education, and childcare means a shift to a more traditional, local decision-making model for communities when it comes to serving the health and safety needs of students and children. Schools will still be expected to comply with longstanding regulations around the control of infectious diseases, and to have a communicable disease management plan.

More details about school reopening planning can be found can be found on the ODE's Ready Schools, Safe Learners information page.

Region 7 Public Health Response

Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County Public Health Departments regularly manage communicable disease outbreaks, and we are prepared to investigate and respond. When a case of COVID-19 is identified in our community, Public Health Professionals work on contact tracing to identify and notify individuals who might have been exposed.

We began preparing for local impacts of COVID-19 and regularly meeting with healthcare partners, Oregon Health Authority, and CDC in January 2020.

We continue to work closely with local schools, healthcare providers, emergency services, cities, businesses, and others to coordinate efforts and to share the most up-to-date information.

This situation update was compiled by the Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County Health Departments. It will be updated with state, national, and worldwide situation data and sent every week.
